13. BROCHURE DESCRIPTION

Whilst all information supplied in our brochure/website is deemed to be correct and to the best of our knowledge, it is understood that the information supplied is for guidance purposes only, could change from time to time, and does not form part of any contract.

14. LIMITATION OF LIABILITY

Although every effort is made to ensure that the villa is in perfect condition, and as described in the literature supplied. It is a condition of acceptance of the Terms & Conditions that the Guest understands this information is as supplied at the time of writing and is subject to change without notice. It should be pointed out that as many communities still have ongoing building & construction work in progress, over which we have no control whatsoever, THE OWNERS and their representatives accept no responsibility whatsoever and no compensation or any other payment will be made to any Guest in respect of any disturbance, annoyance, inconvenience or any other problems that may be caused or created by or in response to any such building or construction work being carried out within the community. Guests specifically requiring information regarding building or construction work affecting the Villa should request this information before booking.

THE OWNERS cannot accept responsibility for third party claims, i.e. Management Company, nor their agents, accidents, damage to, or loss of property or for any expenses incurred for any reason, including changes caused by Force Majeure, regardless of howsoever they may have occurred, nor can liability be accepted for injury as a result of the use of any baby/infant equipment supplied for our guests and or use of the pool or hot tub, howsoever caused. Guests are specifically advised not to allow unsupervised children to use the pool & spa. GLASS is not permitted in the pool/spa area. In the event broken glass gets in the pool or hot tub, the pool or hot tub would have to be drained and refilled, you will be charged for this.

Upon arrival at the rental villa, the Guest should note the pool and hot tub rules and regulations that have been posted, and those emailed out prior to arrival, a copy of which is available upon request. Removal of the pool safety fence is illegal and strictly forbidden, however rolling and clipping the safety fence is acceptable but you do this at your own and others with you risk, this must be put back on your departure.

An alarm system is installed in the villa and must be used every time the villa is left unoccupied, in the event of a break in, if the alarm is not armed then the insurance will be invalid and no claims will be honored. Any losses from the villa will also be payable by the party leader/guests.

15. SWIMMING POOL/HOT TUB

Our pool depth is from around 3 feet to around 5 feet and the Hot Tub is approx. 3 feet in deep.

POOL - Our pool is regularly inspected, cleaned and maintained but may be affected by dust, dirt or insects, particularly during or after bad weather. The pool is cleaned and chemically balanced every week for your safety and comfort; however on rare occasions it may be necessary to apply extra chemical to the pool to maintain safe and correct chemical levels. Should this occur during your stay it will be necessary for you to be out of the pool for a period of 12-24 hours for safety reasons. Please keep both lanai doors closed to keep out unwanted guests and debris.

Pool Blanket or Solar Pill (winter months only). This is there for your use to help keep the pool temperature higher, you must use with great care, this must always be used in conjunction with the pool blanket roller. For safety reasons always roll back the blanket fully onto the roller before using the pool. Do not let anyone within the fenced pool area or near the pool when the blanket is on, especially children, this is very dangerous and could result in drowning if someone falls into the pool when the blanket is on and in use. Use this only at your own and others risk.

BREAKDOWN Very occasionally, pool heating, jets or lighting, etc breaks down - in the unlikely event that the pool

heating breaks down during your stay (if you have pre-ordered this), we will either provide the owed day(s) pool heating at a later time or, if this proves impossible, refund the unused portion of the pool heating costs.

If pool lighting breaks down, this may not be able to be restored without draining the pool - if this is repaired during your stay, please be aware that you may not be able to use the pool for up to 72 hours whilst the water is drained, the light(s) repaired and the water restored to normal levels.

For this reason, pool lighting breakdowns are normally repaired when the home is unoccupied to avoid guest inconvenience.

Hot Tub You need to check the temperature before entering the spa, enter slowly using the steps, this is also a 'cool down step' use this to cool down before leaving the spa. Never allow children to access or use the spa unless closely supervised by an adult at all times. The water temperature should be set at 98 degree Fahrenheit and never exceed 104 degrees Fahrenheit (40 degree Celsius), lower temperatures are recommended for young children and elderly adults. Only use the spa for up to 10 - 15 minutes intervals, if you are in the spa when the temperature is high please leave and cool down before returning. Do not use any electrical equipment within 5 feet of the spa. Please ensure that the cover is replaced immediately after use, this will ensure the temperature is more constant and debris does not get into the spa.

DO NOT USE THE SPA IF ANY OF THE FOLLOWING RELATE TO YOU OR YOUR PARTY MEMBERS: Pregnant women, persons using medications, persons suffering from obesity or with a medical history of heart disease, circulatory problems or diabetes should check with their physician before entering spa. Any Guests with infectious diseases or open wounds.

16. SWIMMING POOL HEAT

Pool heating is recommended (but not compulsory!) for stays between November & April (but can be ordered for any month of your choice) and must be requested on the Booking Form - there is a 4 day minimum period for pool heating. You should note that our HOT TUB IS HEATED SEPERATELY FROM THE POOL AND CANNOT BE LOCKED, SO A CHARGE FOR THIS IS ADDED TO YOUR FINAL BALANCE.

If you have ordered pool heating but the weather is warm, you will pay for ordered pool heating as this will have been turned on in advance of your arrival and no refunds will be given in these circumstances.

WARMING UP If you order pool heating from your check-in date, we cannot turn pool heating on for you whilst your rental home is occupied by other guests. Pool heating will be turned on (at some time between 11 am up to 4pm check-in time) on your check-in day, prior to your arrival. Depending on the weather conditions the water can take some hours to reach optimum temperature.

Due to the nature of the prevailing weather systems in the sub-tropical climate of Florida, THE OWNERS cannot guarantee the water temperature in the swimming pool. The pool heater is set and locked to standard water temperatures. The heater is set to operate at set standard hours during the day, this is to ensure that guests paying for the heating service get the optimum benefit from the heating at normal times, and that we comply with the operating requirements of the system as laid down by the manufactures. The actual water temperature will vary with the ambient temperature, time of use and prevailing weather conditions. THE OWNERS will NOT enter into any discussions concerning complaints regarding pool temperatures and or lighting facilities; therefore guests booking pool heating do so at their own risk.

17. HOT TUB HEAT

Due to the nature of the prevailing weather systems in the sub-tropical climate of Florida, THE OWNERS cannot guarantee the water temperature in the spa. The heater is set and locked to standard water temperatures, although guests can override the set temperature but do so at there own risk. The heater and jets are set to operate at set standard hours during the day, this is to ensure that guests paying for the heating service get the optimum benefit from the heating at normal times, and that we comply with the operating requirements of the system as laid down by the manufactures. The actual water temperature will vary with the ambient temperature, time of use, the proper use of the insulated lid and prevailing weather conditions. THE OWNERS will NOT enter into any discussions concerning complaints regarding hot tub temperatures.

18. NON-SMOKING AND PETS POLICY

It is the standard policy of THE OWNERS that the property is deemed as Non-Smoking. Therefore All Guests are required not to smoke whilst in the villa, garage/games room. Smoking is permitted in the pool deck area, and ashtrays are provided for this purpose. Any extra cleaning or damage, howsoever caused through Guests not abiding by this Non-Smoking Policy, will be dealt with by the deduction of such costs as required by THE OWNERS from their security deposit, according to the Security Bond Procedure (see item 7 THE SECURITY BOND).

CLIMATE Florida has a tropical climate, which is ideal for both humans and pests. These are not an unusual occurrence and, for this reason, our home has a monthly pest control program. To help eliminate these uninvited guests we recommend that all windows and doors remain shut at all times and that all opened food is stored in the refrigerator provided. If you become aware of a pest problem inside the home, sprays such as Raid can be

purchased locally. If the problem is more widespread, you must inform our management company immediately so that the appropriate treatment can be initiated.

No pets are allowed in the villa or garage/games room at any time. If a pet is found in the villa it will render the booking void, all monies paid will be forfeited, all occupants will be asked to leave the villa immediately with no further compensation and the cost of a thorough deep clean of the property will be deducted from the security bond. In the event that the security bond does not cover the cost of the thorough deep clean or the cost of repairing or making good any damage the owner reserves the right to reclaim from the guest any and all additional costs incurred.

Note: If pet/pets are found to have been in the property then the above conditions will apply and a minimum charge of £150 or \$175 will be made.

19. GUEST RESPONSIBILITIES

It is the responsibility of each and every Guest to read and understand the Terms and Conditions and to read and understand the Welcome Book in the Villa, and to ensure that all the Villa and communal rules are adhered to. The party leader is responsible for the actions of all the Guests in their party. Failure to abide by any of these rules could result in deductions being applied to your Security Deposit. The Villa will be professionally cleaned prior to Guests arrival and again after the Guests departure but it remains the responsibility of the Guest to ensure the Villa is left in an orderly state. Kitchen utensils & BBQ's (grill and drip tray) should be cleaned before leaving. The Cleaning Company will charge for any extra cleaning and this will be deducted from the Guest's Security Deposit.

The Guest/s are solely responsible for any damage or breakages beyond "wear and tear" that may be caused to the property and/or to its contents, and also for any loss of items in the inventory during their stay. Upon arrival, the Guest should immediately report any damage to the premises to the Management Company. Examples of such damage might include, but are not limited, to broken windows or blinds, torn screen on screen house, burn marks on counters or furniture, appliance problems, major stains, etc.

The Guest is responsible for the safe return of the key for the property, if this is taken out of the lock box. If the key is not returned or is lost, the cost of changing the lock and lock box will be deducted from the Security Deposit.

An alarm system is installed in the villa and must be used every time the villa is left unoccupied, in the event of a break in if the alarm is not armed then the insurance will be invalid and no claims will be honored. Any losses incurred will also be payable by the party leader.

There are pool alarms on both patio doors and the pool door these are there for your own safety and are required by Florida Law, do not tamper with them in anyway, the pool alarms will sound if any of the three exit doors to the pool area are left open. To stop the alarms sounding the doors need to be shut. If any damage is done to these alarms then the cost to repair/replace will be deducted from your security bond. If any guest is using the pool or the pool vicinity and these alarms are disarmed and so not used correctly, then any claims will be nil and void.

Please bare in mind that most homes are situated on a community, which consists of both residential and short-term vacation homes, we therefore request that out of respect for your neighbours, no noise between the hours of 10pm & 8am.

20 . THE OWNERS RESPONSIBILITIES

It is a requirement of booking that Guests understand THE OWNERS responsibility is to ensure that the villa is available for the Guest for the times requested and that it has been prepared in readiness for the Guest's arrival. In the unlikely event of there being a problem with the Villa, it's contents, running or operation, including any community problems, the Guest MUST contact our relevant Representatives in Florida, (details will be supplied prior to departure). The relevant Representatives are available with a dedicated 24 hour phone line and are the only people able to resolve any problems regarding the Villa during the rental period. Any and all problems must be reported to the Representatives including damage or breakages caused by the Guests. THE OWNERS will not enter into discussion relating to problems with the villa that have not previously been reported to the Representatives in Florida.
